

## China Liberal's All-in-one Machine AI-Space Used in Opening Ceremony of Preparatory Course for Study Abroad Department of Beijing Foreign Studies University for the Academic Year 2021

September 16, 2021

BEIJING, Sept. 16, 2021 /PRNewswire/ -- China Liberal Education Holdings Limited (Nasdaq: CLEU) ("China Liberal", the "Company", or "we"), an educational services provider in China, providing, among other services, smart campus solutions, today announced that its self-developed all-in-one machine AI-Space was used in the 15<sup>th</sup> opening ceremony of the academic year 2021 by the freshmen of Preparatory Course for Study Abroad Department (the "Department") of Beijing Foreign Studies University ("BFSU") on September 12, 2021. The opening ceremony was simultaneously live broadcasted, which allowed over 700 freshmen to watch the ceremony online from the west campus at BFSU and 30 sub-venues.

AI-Space is China Liberal's self-developed and patented all-in-one machine. It can intelligently switch the main venue and sub-venue pictures with high-quality audio, including speaker pictures, stage pictures, audience panoramic pictures, PowerPoints presentation sharing and video sharing, to create immersive experience for audience in the sub-venues. The processing and high-quality transmission of images and sounds in the live broadcast process supported by one device through its powerful functions as high-definition mixing moment function, audio processing function, central control function and support 4K high-definition signal transmission function, which solve the difficulties for simultaneous live broadcast through nearly 30 sub-venues with the intelligent control, one-key operation and convenient applications of the AI-Space.

The online merge offline ("OMO") teaching system built by China Liberal through AI-Space with the teaching characteristics of BFSU will be fully adopted in the new semester. With its unique functions of sound source positioning, image tracking, one-key touch, real-time recording and broadcasting, online class tour, comprehensive management and control, scene switching and others, AI-Space is a stable, high-definition cloud video platform and easy-to-deploy, integrated terminal equipment, which integrates new technologies such as big data and artificial intelligence. AI-Space also helps teachers conduct one-on-one and group instructions through online and offline settings. While providing diversity, intelligence, and interactivity in teaching scenarios, OMO teaching system improves student learning efficiency, allows high-quality teachers to reach more students, strengthens teachers' teaching responsibilities, and further promotes the overall development of education informatization.

Ms. Ngai Ngai Lam, Chairwoman and CEO of China Liberal, commented, "We are very pleased to see that our AI-Space and the technical support of engineers have helped the Department to host the opening ceremony successfully. This is the first time that the Department simultaneously live broadcasted its opening ceremony through multiple venues. It is not only an important measure for technological innovation, but also an important measure to ensure the safety of students and teachers during the COVID-19 pandemic. We believe that the OMO teaching system designed for BFSU will bring teachers and students an excellent experience of integration of education and technology."

### About China Liberal Education Holdings Limited

China Liberal, headquartered in Beijing, is an educational services provider in China. It provides a wide range of services, including those under Sino-foreign jointly managed academic programs; overseas study consulting services; technological consulting services for Chinese universities to improve their campus information and data management system and to optimize their teaching, operating and management environment, creating a "smart campus"; and tailored job readiness training to graduating students.
