**China Liberal Education Holdings Limited Successfully Finished Projects Providing
Technical Support Services for State Grid Corporation of China**

BEIJING, CHINA, December 10, 2020 -- China Liberal Education Holdings Limited (Nasdaq: CLEU) (“China Liberal”, or the “Company”, or “we”), an educational services provider in China, today announced that the Company has successfully provided services under four agreements (the “Agreements”) with Wuhan Wangjie Hengtong Information Technology Co., Ltd. (“WWH”), one of the service providers of State Grid Corporation of China (“SGC”), a Chinese state-owned electric utility corporation, to provide technical support services for SGC.

Pursuant to the Agreements with terms ranging from one month to one year in 2020, the Company agreed to provide technical support for the construction of the comprehensive operational capacity of SGC’s power supply command center, in order to achieve the function of multi-location video conference, which is used for scheduling meetings, consultations, discussions and training sessions. The Company also agreed to develop remote video interactive information system for SGC and optimize the operation of SGC’s service power supply supervision and management platform.

Ms. Ngai Ngai Lam, Chairwoman and CEO of China Liberal, commented, “We are excited to have worked with WWH and provided SGC with our services. This showcases the quality and popularity of our products and services as well as our strong capabilities. Through cooperation, we quickly transferred our technology and applied our experience with existing data platforms to SGC’s various business sectors. In addition, our cooperation reduced the customer’s data development and maintenance costs, realized multi-dimensional statistical analyses, improved system flexibility, and found timely solutions to address customer needs. This cooperation with SGC marked a good start, and we expect to expand our cooperation in 2021, which will not only include our data platform technology, but also our newly launched all-in-one machine AI-Space, designed to provide highly integrated visualization solutions for various scenarios with strict reliability requirements and is a good fit for smart business and exhibition halls of SGC and telecommunications companies.”
